A QUEEN'S CAPRICES.

Some Interesting Notes Concerning Queen Victoria.

Strolling into Redfern's, the ladies' tailor of New York, the other day to have a glance at his latest inspiration, I happened to notice on his desk a small, rather seedy looking scrap-book. And of course that proverbial feminine curiosity with which the men are always twitting us, and which (between you and me) is really quite as much an attribute of their sex as ours, would not let me rest until I at least tried to get a peep at its contents.

"That?" said Mr. Redfern, "oh, its only a few of our old letters from—well, look for yourself, and find out the writers."

Taking advantage of this permission, I opened the book and gazed with admiration upon epistles emanating from such distinguished sources as the Queens of Italy, Greece, Sweden, the Empress of Russia and Germany, poor dethroned Eugenie; and a host of Princesses, Duchesses and lesser lights of the aristocracy. The most important and interesting of these letters, to an English-speaking reader, are those from members of English royalty.

Here is one from the Princess of Wales, headed:

MARLBOROUGH HOUSE, PALL MALL, S. W.

"Her Royal Highness, the Princess of Wales, wishes to see you about some cool Summer frocks, and also, about a mantle and coat for the Empress of Russia.

"To Mr. Redfern."

From the Queen herself, comes the following:

WINDSOR CASTLE, 12th April, 1889.

"Her Majesty wishes Mr. Redfern to send in her account."

"Would you like to see her Majesty's own signature?" asks Mr. Redfern.

"Here it is, and here is a facsimile of it, with the royal coat-of-arms, which you may make use of, if you care to."

"Certainly I care to, and on the principle of always trying to get more of a good thing, and especially when it is to be had gratis, I manage by a few gentle insinuations, to draw forth some interesting bits of information about the Queen's peculiarities and fancies. For although she may be a "right, down, regular, royal queen," she doesn't cease to be a woman, and is therefore as liable to fads and prejudices, and queer little ways, as the rest of her sex. For instance, in pleasant Summer weather, she likes to take her breakfast in a tent on the lawn, and it must be served precisely at half-past 8 o'clock, for England's Queen does not countenance laziness; marching up and down outside are two gorgeous looking pipers in full Highland costume playing the bag-pipes. Then she has some simple tastes, and all a true English woman's love for out door exercise; and she is often to be seen in the lanes about Osborne, arrayed in a wide brimmed black hat, and picking wild flowers like any country bred child.

One of her amusements occasionally, when she is in good health and spirits, is to summon a number of her ladies-in-waiting and attendants, and forming a procession set out to inspect her stables, which are about a mile away from the house, for it seems she is very fond of horses, and it is one of her notions that all her equine belongings shall be washed with one especial kind of soap. Whether it is the "good morning; have you used ——" sort? I did not learn.

She is very observant, too, and has a really wonderful memory for details, for one who has for over fifty years been burdened with such great responsibility. It seems that when she is at her Summer residences of Balmoral and Osborne, it is her custom to go around among her tenants and the cottagers, and to note just what addition to their furnishments or wardrobes would be more welcome. These items she keeps in mind for months, and then at Christmas there goes to each cottage just that very thing which was most longed for. To the women and children she most frequently gives the material of a good wool gown, and for these she calls upon the house of Redfern. Now it has been the custom of this firm to take the opportunity of clearing off all their mutilized and "passe" stock even though it should date back more than one season. Well! the last time these stuffs were carried down for her Majesty's inspection, she said, after examining them, "now I am quite willing, you know, to help you get rid of your goods, to a reasonable extent; but you've been sending me some of these designs for the last four or five years, and I'd really like to have a few new ones once in a while, or I'm afraid I'll be giving the same patterns to the same persons over and over again." There's where our common feminity peeps out, you see.

Like some of us Americans, Victoria, isn't above indulging in "bargains at reduced prices."

ELANOR COBBET.

THE SURVEYOR GENERAL'S OFFICE.

The Silver State says:

Some of our citizens are discussing the question whether the United States Surveyor General's office to which G. F. Turrilin, a citizen of this county, has been appointed, will be removed to Winnemucca? Years ago it was located at Virginia City to oblige the incumbent, General Davis. Subsequently it was removed to Reno to accommodate General Powning, and now, unless the rule is changed, it ought to be removed to Winnemucca, which is nearer the centre of the State and more accessible from all parts of the State, not only to oblige the new appointee to the office but the public generally.

The office was removed to Reno before Mr. Powning was ever thought of for Surveyor General. And for all who have business with the office Reno is the most convenient point in the State.

DESERVES PRAISE, NOT CENSURE.

The Silver State says:

Washington dispatches say that Senator Jones, of Nevada, occupies a peculiar position at present. While acting as a member of the Senate Republican Caucus Committee, which was authorized to draft, in connection with the House Republican Committee, a silver bill which the Republicans of both Houses would support, he incautiously agreed to recommend a bill which was satisfactory to the gold bugs but not to the silver men. The House Committee on Coinage, of which the gentlemanly Bartine of this State is a member, by a strict party vote agreed to report the caucus bill favorably, the Democrats voting "no." This bill Senator Stewart shows to be worse than the present Standard Dollar Act, and Senator Teller, of Colorado, denoune s it as a sham. Senator Jones upon ascertaining the real intent and purpose of the bill announced that he would not support it and for this declaration the ultra partisans, who upheld the gentlemanly Bartine for placing the success of party above the interests of his constituents, are disposed to censure the Senator. The masses of the people, however, those who expect no favors from the Administration and no not believe in machine politics, believed that Senator Jones deserved praise instead of censure for declaring his independence of the caucus, by avowing his intention to vote against a bill which is objectionable to the silver men and the passage of which would injuriously affect his constituents.

Land of the Rising Sun.

The S. F. Bulletin says: "Tourist travel is, according to steamship reports, growing rapidly. The Island Kingdom has during the past few years been acquiring wide renown as a land of scenic interest. Many wealthy Eastern people who are tired of their annual pilgrimage to Europe have been delighted with the change afforded by the Japan tour. There is the incidental visit to this State with its many attractive features, and opportunity is also afforded for brief glimpses of China and Corea. The round-trip rate from here is now fixed at $350, good for six months. A. H. Fowler and J. A. Porter of Colorado, and D. E. Bailey and C. E. Boyle of Buffalo, N. Y., with their families, have just returned by the Gaelic. They went a good way into the interior of Japan and saw many interesting and entertaining things.

The Raymond organization is planning to include Japan in its tourist territory. A descriptive pamphlet to guide travelers to points of interest will soon be issued by the Occidental and Oriental Company's passenger department.

THE RICHEST MINE IN THE WORLD—NEWS FROM ALL QUARTERS.

A Lively Fight in the House Between the Tariff and River and Harbor Members.

The Tariff Bill First.

Special to the JOURNAL.

WASHINGTON, May 5.—At a conference of the Republican members of the House this afternoon the River and Harbor bill managers made strenuous efforts to have that appropriation bill made the special order for consideration to a conclusion before the Tariff bill is taken up, and Representative Henderson made a statement of the reasons why this should be done. A majority of the members could not be made to take his view and it was decided, 90 to 19, that the Tariff bill was a matter of prime importance and should be called up Wednesday. It was agreed that the general debate go on for four days, with night sessions for speeches. Eight days additional will then be allowed for the consideration of the bill by paragraphs, under the five minute rule. May 21st the previous question on the final passage of the bill is to be considered ordered.

The River and Harbor bill men then asked to have a special rule adopted providing for the consideration of their bill immediately after final action upon the Tariff bill, but again they were defeated. It became evident in the discussion that the general feeling was that a final adjournment could be reached about the middle of July. The members of the committee on rivers and harbors feel indignant over the manner in which their bill was side tracked. They appreciate the fact that unless early action is taken upon that measure it may fail by reason of lack of time for due consideration by the Senate. They are determined to pass to its consideration as soon as the Tariff bill is out of the way and will antagonize all other legislation until the River and Harbor bill is disposed of.

A Brutal Murder.

Special to the JOURNAL.

DENVER, May 5.—The police are of the opinion that Mrs. Butterfield, who was found murdered in her house yesterday, was killed by some man who called at the house for the purpose of renting a room. Finding her alone he attempted to outrage her and in the fight which ensued struck her a blow which caused her death. The woman's clothes were torn into shreds and the body badly scratched. Finding that the woman was dead the wretch covered the body with a blanket, washed his bloody hands in a washbowl in the room and left.

The crime was probably committed between 4 and 8 P. M., Saturday, and the body was not discovered until Sunday evening. Late this afternoon the police arrested a man who gave the name of Charles Munson. His face was very badly scratched and his eyes black. The man could not tell who it was that scratched him or when it happened. The police believe that they have the right man.

The Beck Obsequies.

Special to the JOURNAL.

WASHINGTON, May 5.—The Committee of Arrangements of the two houses of Congress and the pallbearers, will meet at the house of Representative Breckenridge tomorrow morning. At 10 o'clock Senator Beck's body will be taken to the marble room of the Senate and there viewed by the public until 11:30 o'clock. After the two houses have assembled in the Senate chamber the body will be taken there. Chaplain Butler and ex-Chaplain Bullock will conduct the funeral ceremonies. A special train will convey the remains to Lexington, Ky.

Mr. Hill Shouts.

Special to the JOURNAL.

ALBANY, N. Y., May 5.—Governor Hill to-day sent the Legislature a message suggesting a change in the matter of contested elections. He suggested submitting to the people an amendment to the State Consitution which will take from each house the power of judging of its own elections, and confer jurisdiction upon the courts. He would also recommend Congress to adopt a similar amendment to the Federal Constitution.

Bromwell was called and told the story of the shooting. He stated that he did not think Pratt was in his right mind at the time. A number of other witnesses coincided in this view.

Threatened Strike.

Special to the JOURNAL.

This decision caused much consternation among contractors who fear the mills will be closed down as it is well understood that the mill hands will strike immediately for shorter hours. Contractors will therefore be unable to procure the mill work which is needed on buildings in course of erection. It is feared all building trades will be affected by the millmens' decision.

The Cushing's Fast Run.

Special to the JOURNAL.

WASHINGTON, May 5.— The torpedo boat Cushing arrived at the Washington navy yard yesterday, having made the run from New York in 28 hours, a performance that beats all previous ones. She used only one boiler with an average pressure of 90 pounds of steam, and notwithstanding the weather was thick and heavy, made an average speed of 15 knots. Naval officers are enthusiastic over the performance of the Cushing and say her run from Newport to New York and then to Washington is unparalleled.

TO THE PUBLIC, GENERALLY.

THAT MY WIFE HAS LEFT ME FOR NO cause whatever, and has sued for a divorce on the grounds of cruelty, which charge I deny. She has been influenced by certain women mischief-makers, who are contemptible, and ought not be allowed to live in a civilized community. I have not a word to say against my wife and respect her as a lady. G. W. MERSHON.

NEW TO-DAY.

A sea-serpent, 103 feet long, was seen to coal itself up in slippery folds on the coast of Florida last month. Three reliable persons saw this creature distinctly.

Reader, the above is a "yarn." If people would believe the following truthful statement as readily as they swallow sea-serpent stories, it would be the means of saving thousands of lives. Dr Pierce's Golden Medical Discovery, if taken in time and given a fair trial, will actually cure consumption of the lungs, which is really scrofulous disease. If this wonderful medicine does not do all we recommend, when taken as directed, we will cheerfully and promptly return all money paid for it. Can any offer be more generous or fair? No other medicine possesses sufficient power over that fatal malady—Consumption, to warrant its manufacturers in selling it under such trying conditions. The "Golden Medical Discovery" is not only the most wonderful alterative, or blood-cleanser, known to medical science, but also possesses superior nutritive and tonic, or strength-giving properties, which assist the food to digest and become assimilated, thus building up both strength and flesh. For all cases of Bronchial, Throat and Lung Diseases, accompanied with lingering coughs, it is absolutely unequaled as a remedy. For Weak Lungs, Spitting of Blood, and kindred affections, it surpasses all other medicines.

$500 REWARD is offered by the manufacturers of Dr. Sage's Catarrh Remedy for a case of Catarrh in the head which they cannot cure. By its mild, soothing and healing properties, Dr. Sage's Remedy cures the worst cases, no matter how bad, or of how long standing. Fifty cents, by druggists.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee -The Aristocratic Avenue Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Downing's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with $300,000 capital, and the First National Bank with $200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in Strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno.

Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.
